Newsletter #2

Meet our members!

I am Deidra Escobar, a Bolivian economist with a Master's degree in Business Management and Marketing. I have been traveling around the world for over 10 years due to my husband's job. Six years ago, I joined the IDB. I currently live in Guatemala City, where I am the Vice President of the Family Association. In Georgetown, Guyana, I was the president of the Association, where we carried out social projects, and during the pandemic, I joined the "Art Club," where we made African jewelry and embroidery virtually. Additionally, I have participated in various courses and workshops aimed at both spouses and children.

Deidra Escobar

I am grateful to the IDB and the Family Association for considering them my second family.
